Connecting Immigrants to Jobs

Overqualified immigrants

'Point system' based on language post-secondary education, work experience...

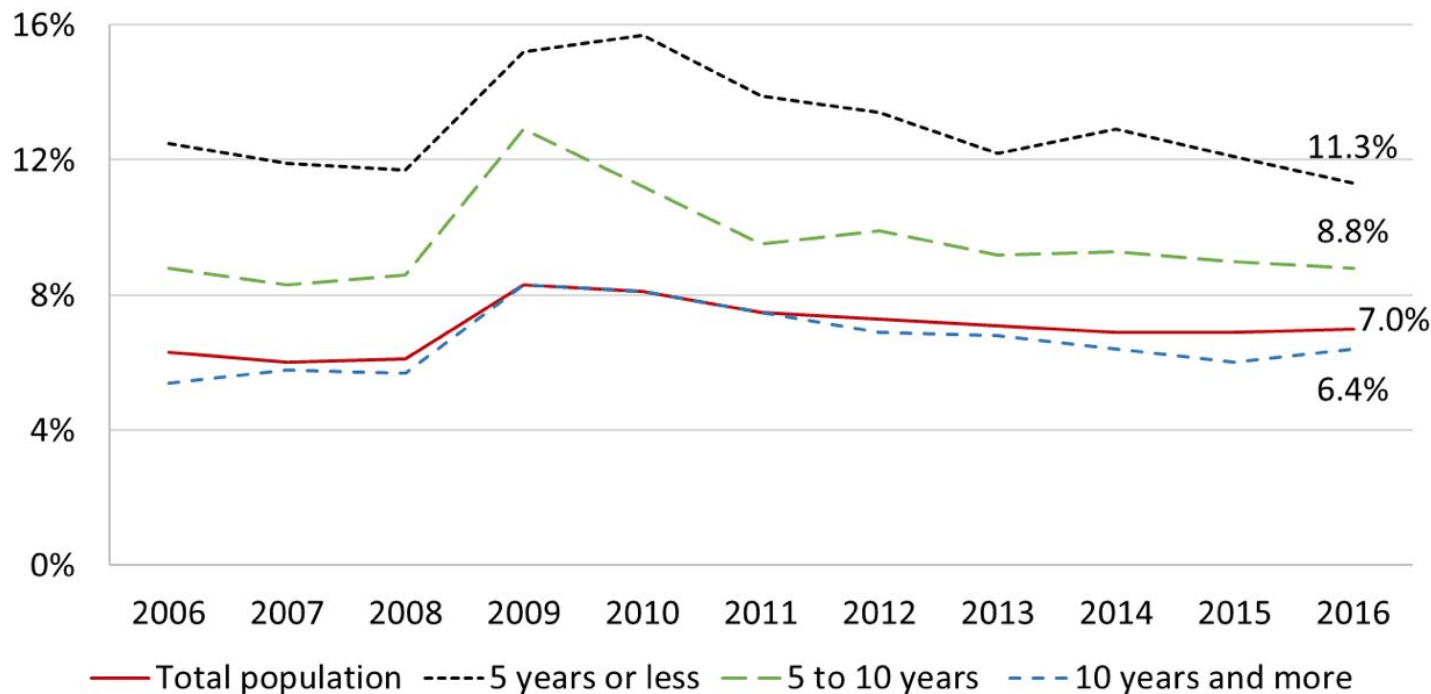

One of the most highly educated immigrant populations in the OECD.

Unemployment rates

Please write your great title is here

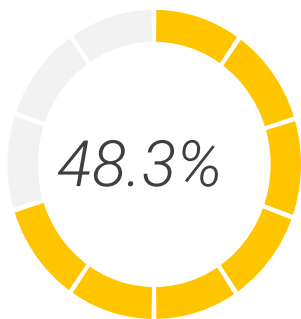

Annual unemployment rate based on arrival period, 2006-2016

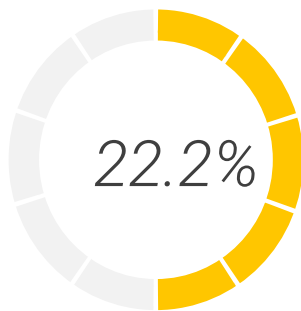

Close the engineering matching gap

Immigrants with engineering credentials are twice as likely to not be matched with an engineering job.

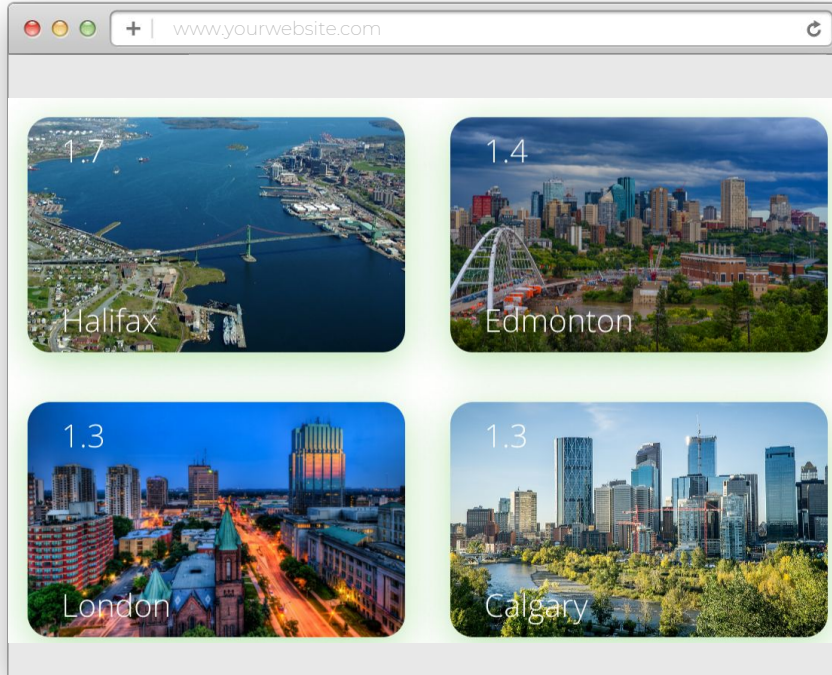

Canadian credentials

Foreign credentials

Envisor

1

Immigrants fill a form: skills, career experience, education

2

Our platform directs them to the most employable cities for their skills.

3

For the top 3 skills, our platform lists relevant mentorship services.

Mentorship: Working with existing resources

- ★ Internship program linking underprivileged/marginalized groups in Canada to paid opportunities

Four pillars for success:

- Coaching & Mentoring
- Work Integrated Learning (WIL)
- Knowledge Transfer
- Networking Opportunities

★ IMPACT

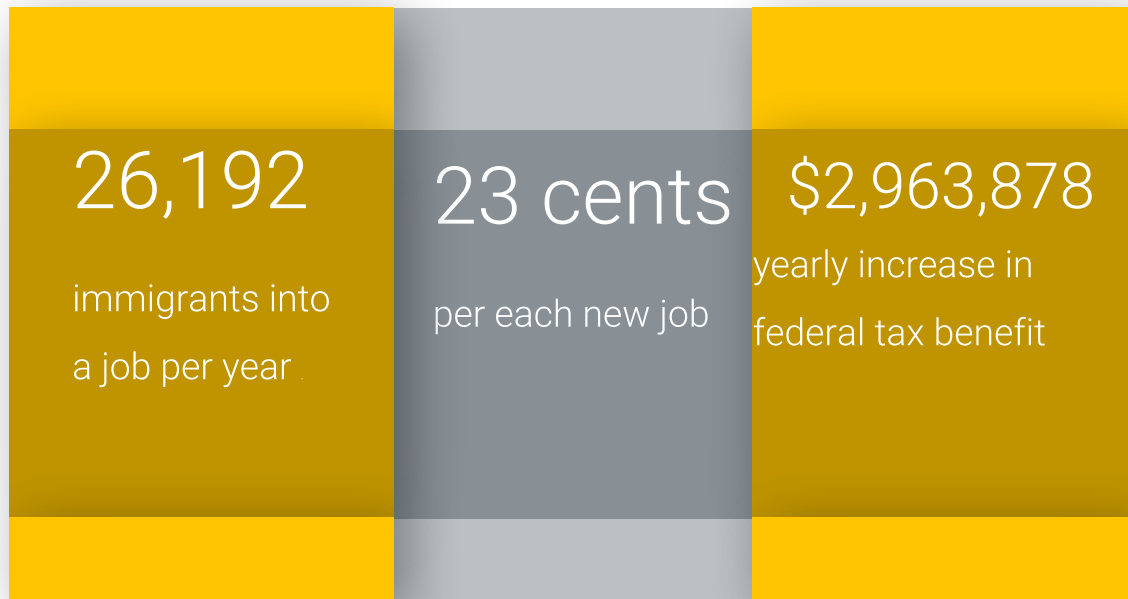

- Youth employment dropped 5% from 2005 to 2015
- In 2014, the employment rate of Canadians with disabilities remained at 30% below the general population
- In 2015, immigrants' employment rate is 3% less than the national average

Promoting harmony among all people

- ★
 - Connected more than 13,000 people with top employers in Canada of all sizes, from all sectors, through paid internships
 - Career Edge interns earned equal to or greater than Canadians' average salaries upon completing their Career Edge paid internships
 - Non-Immigrants: \$36,300 vs Immigrants: \$29,770

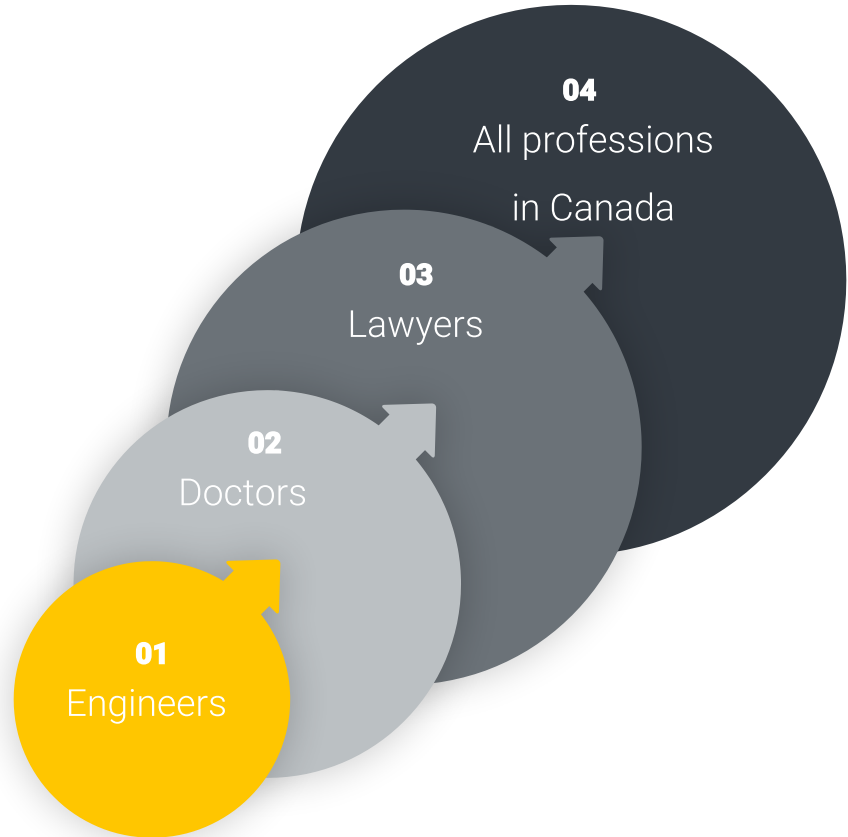

High Impact

Scale up

Initial target audience: Engineering Profession

Expansion to other non-convertible degrees

THANK YOU
